Nay Aung is now a PhD student of Mandalay Technological University, Mandalay, Myanmar. He was born in Mone, Kyaukkyi Township, Bago Region, Myanmar. His date of birth is 16 february 1984. He got his B.S degree with Biotechnology from Technological University (Taungoo), Myanmar in 2006. He obtained his M.S degree with Plant and Agricultural Biotechnology from Mandalay Technological University, Myanmar in 2010.

He has over six years working experience in research “*Rice Mutation Breeding*” and three years working experience in teaching. Now, he is also doing his PhD research in Plant Biotechnology at Mandalay Technological University. He participated in International Conference on Science and Engineering 2015 at YTU, Myanmar, by oral presentation about “*Effect of Different Doses of Gamma Ray on the Growth Characters of Ayarmin Rice Variety (Machando)*.”
